About Us

Established in the year **1997**, **Padmavati Ply Private Limited** has pioneered **manufacturing** a comprehensive range of **Particle Board, MDF Board** and **Bagasse Board**.

Having a relatively superior and homogeneous structure, these boards are an excellent substitute for conventional wood and Plywood in almost any interior application. The demand for High Moisture Resistant (HMR) Boards is also hugely emerging to meet the humid climatic conditions and exterior applications as well. Perhaps, these boards are the most environment-friendly wood panel product that is available to meet the challenges arising on account of limitations of natural forests and fulfil the growing needs of mankind. Our boards, branded '**LEO CLASSIC**' are widely acknowledged in the nationwide market for their quality and wide range of thickness and sizes available. Our boards are distinguished with some of the exceptional advantages like high strength, elongated durability, aesthetic designs, ease of machining, dimensional accuracy, abrasion resistance and termite endurance.

We have gained a remarkable position in the industry under the able guidance of our Managing Director, **Mr. Anil Agarwal**. His knowledge and expertise, have helped us in gaining popularity in both end-users and commercial markets.

PARTICLE BOARD

Pre-Laminated Particle Board

Prelaminated Particle Board
